Product description

Zettex Leak Detector a non-flammable water-based foam for the visible detection of gas leaks of sealed installations.

Product properties

- Ease of use, virtually instant detection by visible bubble streams
- Non-flammable
- Completely inert
- Non-corrosive
- Easily removed, completely water soluble

Applications

You can use the Zettex Leak Detector on surfaces of pressurised installations where leakage is suspected. Please don't use it on areas where phosphorous containing gases are involved and in conjunction with gases likely to react or decompose in contact with moisture or water.

Shake the can before use, and apply liberally, directly to the area of the suspected leak. Inspect the area for creation of a bubble stream.

Packaging

Aerosol 500 ml

Colour

Transparent

Safety recommendations

Please read our MSDS before using this product.

Properties	Specifications
Appearance	A slightly hazy liquid with an ammoniacal odour
pH	9-11
Specific Gravity	1.000 +/- 0.01
Flammability, as supplied	Non flammable
Composition Data	An aqueous solution of coconut ethanolamides and ammonium hydroxide in a nitrogen propellant.
Non-Volatiles % m/m	2-10
Active content % m/m, as supplied	90-99
