

Product information

Engine Compartment Cleaner

PI 6/20/04/2015

Description

Engine Compartment Cleaner has been specially formulated for cleaning the engine and the engine compartment. The product dissolves oil and grease residues easily as it does tar, brake abrasion and other contaminants.

Properties

- releases dirt, oil and grease residues
- does not attack plastics, rubber and paints
- fast acting
- removes preservatives
- high washing and cleaning efficiency

Technical data

Form	flüssig, aerosol
Color / appearance	hellgelb / light yellow
Base	Tenside und Lösungsmittel / surfactants and solvents
Propellant	Propan, Butan / propane, butane
Density at 20 °C	0,72 g/cm ³
Odor	charakteristisch / characteristic
Flash point	-60 °C

Areas of application

For cleaning engines and engine compartments.

Application

Spray the parts to be cleaned from about 20-30 cm and leave to act for approx. 10-20 minutes depending on the degree of contamination. After this, wash off thoroughly with a narrow jet of water. Use LM Engine Sealant for preserving the cleaned components. Can also be used to remove racing corrosion protection wax, Item no. 1608 or wax coating, Item no. 3311

Note: When using the Engine Compartment Cleaner on components that have been repainted or painted by airbrush, first check for compatibility in a concealed area. When cleaning, the local regulations of the water management authority must be followed.

Available pack sizes

400 ml Can aerosol	3326 D-GB-I-E-P
400 ml Can sheet metal	3963 D-RUS-UA
